

To: Judy Jackson (Room Unknown)

Sorry you are back in hospital. Can't you find another 'hotel' to give you services? I certainly hope you (or them) get all of this whipped so you can continue with your normal life. Oh well, for me, back to Dr. Wall today - have bronchitis again or still. Just antibiotics this time, no steroids so far. Good

Doctor article in today's H & R about steroids today; read it if you get a chance. Take care and just want you to know I am thinking of you. Sue Hale
