

To: Nan Phillips

Dear Nan, We are so very sorry to hear you are in the hospital. Please know we are thinking of you and pray you get the help you need and feel better. We just returned from the lake with 4 grandsons and we are pretty tired! We all had a wonderful time but my sad news is that Katie and her family are

moving to Nashville this Sunday. We hope it works for them and they find their happiness in this new location. Nan, we love you and hope you start to feel better. You've been a wonderful friend and I want to hear your voice on the phone again. Lots of hugs and kisses, Connie and Harvey
